SPILL WRANGLER

ECO-ABSORBENT

DISPOSAL GUIDE: KNOW YOUR STATE RULES

SPILL WRANGLER PASSES THE PAINT FILTER TEST (EPA Method 9095B)

No free liquids = eligible for solid waste landfill disposal in most cases. But disposal rules depend on WHAT you absorbed.

KEY PRINCIPLE: It's not about the absorbent - it's about the LIQUID.

Non-hazardous spills (water, milk, coolant, coffee) = dispose as normal solid waste in ALL states.
Hazardous spills (listed solvents, characteristic waste) = must be handled as hazardous waste EVERYWHERE.

USED OIL ABSORBENT DISPOSAL BY STATE

When Spill Wrangler is used on oil spills (used oil, motor oil, hydraulic fluid)

MOST STATES

Normal Solid Waste Disposal

Follow Federal Guidelines:

- ✓ Pass paint filter test
- ✓ No listed hazardous waste
- ✓ Landfill operator accepts it
- ✓ No free-flowing oil visible

Includes:

Texas, Wisconsin, Michigan, Pennsylvania, Illinois, Ohio, Indiana, Florida, Georgia, Colorado, Missouri, & most other states following federal RCRA framework

SW ADVANTAGE:

Passes paint filter test. Biore-mediates oil for cleaner disposal.

STRICTER STATES

Hazardous Waste Rules Apply

Oil absorbents = hazardous:

- ✗ **California**
  Oil absorbents managed as hazardous waste. Used oil is state-designated hazardous.
- ✗ **Arizona**
  Landfills won't accept. Must recycle or manage as hazardous waste.
- ✗ **New York**
  Oily absorbents treated as hazardous waste unless recycled.

SW ADVANTAGE:

Bioremediation breaks down hydrocarbons over time.

ALWAYS TRUE

Federal Rules In Every State

No matter where you are:

1. Determine if absorbed liquid is a hazardous waste
2. If hazardous, handle as hazardous waste
3. If non-hazardous, ensure no free liquids (paint filter)
4. Confirm landfill accepts oil-contaminated waste
5. Check YOUR state regs - they can be stricter

PRO TIP:

Always contact your landfill before disposing used absorbent.

WHY SPILL WRANGLER HAS THE DISPOSAL EDGE

Passes Paint Filter	Bioremediates Oil	Less Waste
No free liquids = landfill eligible	Microbes break down hydrocarbons	5X absorbency = 80% less to dispose

This guide is for informational purposes only and does not constitute legal advice. Always consult your state environmental agency and local landfill for specific disposal requirements. Regulations change frequently. Generator is responsible for proper waste characterization. Contact your state EPA office for the most current rules.
